

HERBERT'S ZOOMIES

Player Instruction Manual & Gameplay Guide

1. GAME OVERVIEW & STORY

Herbert's Zoomies is an energetic, arcade runner starring **Herbert**, a real Snowshoe Siamese kitten. Herbert has suddenly lost his tiny kitten mind and is tearing through the living room at absurd speeds! Your goal is to guide Herbert through the house, steer around household furniture, leap over hurdles, collect mouth-watering treats and toys, navigate his grumpy older housemate **Kitty**, and unleash the legendary **Maximum Zoomies** mode!

Figure 1: Herbert activating Maximum Zoomies while leaping past Kitty and collecting toys.

2. TOUCH CONTROLS & HOW TO PLAY

Action	Touch Gesture	Gameplay Effect
Steer / Lane Drift	Drag finger UP / DOWN on screen	Smoothly navigates Herbert across living room lanes with responsive kitten tilts.
Springy Jump / Pounce	Tap Screen OR Swipe UP	Herbert leaps into the air with generous hang-time to clear slippers, tunnels, cushions, and Kitty!
Menu Selection	Tap "PLAY" or "AGAIN!"	Starts a new run immediately without loading screens or ads.

3. CHARACTERS

HERBERT (The Kitten)	• Appearance: Pure cream-white fur, dark seal brown ear points, dark eye mask with a white inverted-V blaze, bubblegum pink nose & beans. • Personality: Hyperactive, curious, innocent, springy. • Abilities: High jumping parabolic arc, rapid steering, Maximum Zoomie invulnerability.
KITTY (The 9yo Matriarch)	• Appearance: Compact, stocky brown/gray mackerel tabby with forehead "M" stripes and unamused gold-green eyes. • Personality: Calm, grumpy, completely unimpressed by Herbert's chaos. • Behaviors: Loafing in lanes, taking midday catnaps (with Zzz floaties), slow waddling, and swatting with cartoon claws if Herbert rushes too close.

4. PICKUPS, COMBO SYSTEM & MAXIMUM ZOOMIES

Item / Event	Base Points	Zoomie Energy	Effect
■ Fish Treat	+100 pts	+25%	Tasty snack that rapidly charges Zoomie Energy.
■ Toy Mouse	+250 pts	+35%	Plush toy mouse with bouncy spring tail.
■ Yarn Ball	+250 pts	+35%	Vibrant wool ball with trailing yarn ribbon.
■ Near Miss	+150 pts	+20%	Skimming close to an obstacle without touching.

■ **MAXIMUM ZOOMIES:** When the Zoomie Energy meter hits 100%, Herbert enters **Maximum Zoomies mode** for 6 seconds! His pupils dilate huge, speed increases by +35%, all score points are **TRIPLED (3x Multiplier)**, and soft obstacles harmlessly bounce out of his path!

5. STUMBLE BUFFER & COZY PHILOSOPHY

- **Life Buffer (Stumble Recovery):** Herbert has a built-in mistake buffer. The first time he bumps into a hazard, he experiences a comical **Stumble** with 1.5 seconds of invulnerability flicker and temporary speed slowdown, rather than an instant defeat.
- **The Flop:** If a second collision occurs, Herbert tires out and flops onto his pink belly for a nap. There is zero violence or harsh penalty—simply tap **"AGAIN!"** to start a fresh run!

6. TECHNICAL & BUILD SPECIFICATIONS

- **Engine:** Custom Kotlin 2D SurfaceView Vector Simulation (1080x2340 Fullscreen Fill)
- **Target Platform:** Samsung Galaxy S24 Ultra (`SM-S928U`), Android 14+ (SDK 35)
- **Audio & Privacy:** 100% synthesized PCM audio, zero external analytics, zero ads, zero internet permissions required.
